

# Experiment:-2 less, more, and vi Commands in Kali Linux

## AIM

To execute and display the results of the following commands in the Kali Linux operating system:

- less command
- more command
- vi command

## PROCEDURE

1. Open **Kali Linux**.
2. Open the **Terminal**.
3. Create a sample text file using the echo command.
4. Use the less command to view the contents of the file page by page.
5. Use the more command to view the contents of the file page by page.
6. Use the vi command to create and edit a text file.
7. Save and exit the vi editor.
8. Verify the created file using the cat command.

## CODE / COMMANDS

### A. less Command

#### Purpose

The less command is used to **view the contents of a text file one page at a time**. It allows forward and backward navigation.

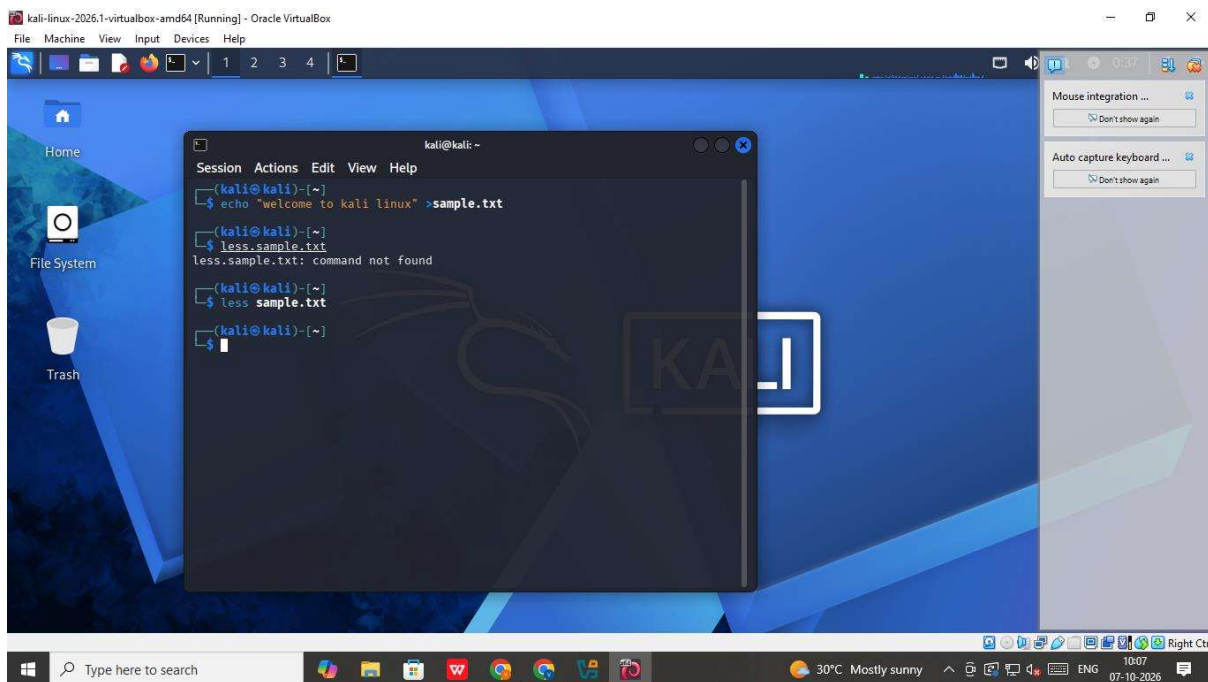

## Command

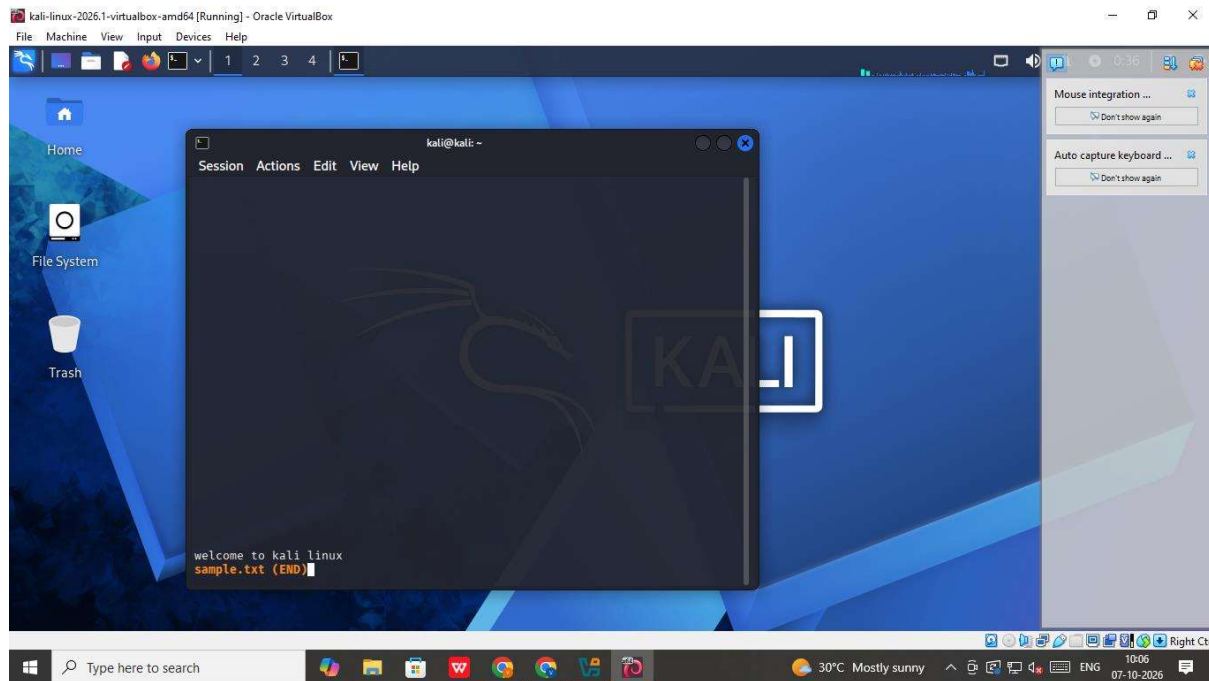

```
echo "Welcome to Kali Linux" > sample.txt  
less sample.txt
```

## Sample Input

```
echo "Welcome to Kali Linux" > sample.txt  
less sample.txt
```

## Sample Output

**To exit less:**

Press q

## B. more Command

### Purpose

The more command is used to **display the contents of a text file one screen at a time**.

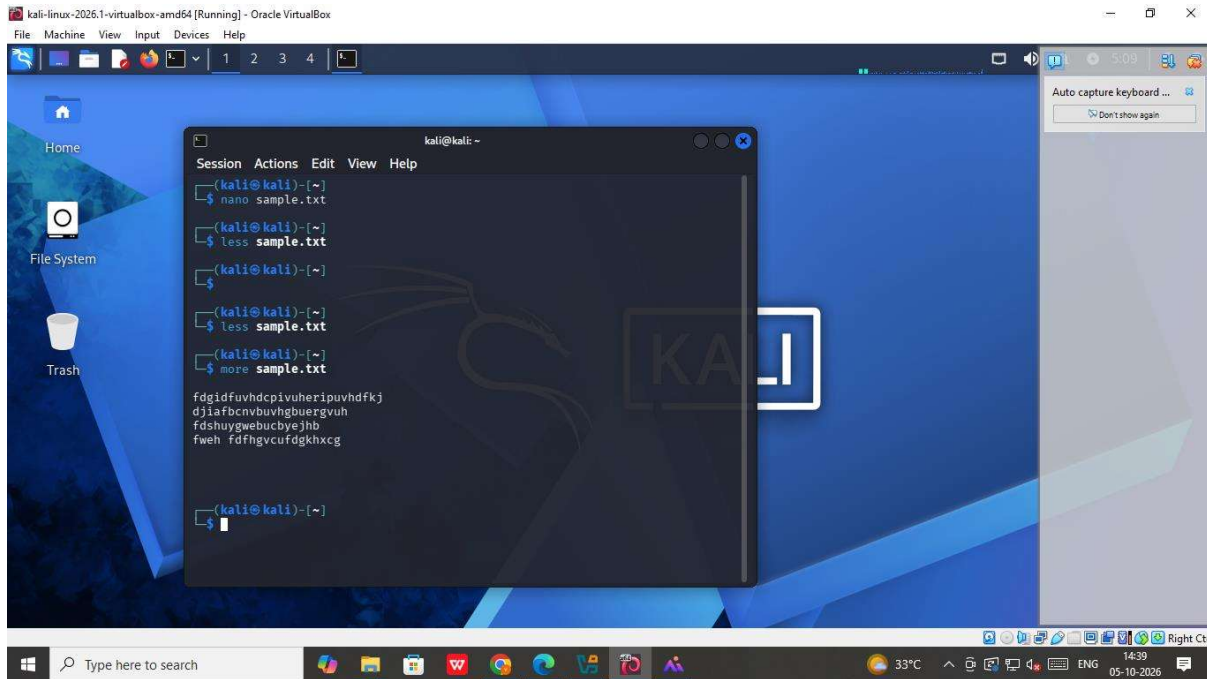

### Command

```
more sample.txt
```

### Sample Input

```
more sample.txt
```

## Sample Output

```
kali@kali ~  
Session Actions Edit View Help  
[kali@kali]~  
$ nano sample.txt  
[kali@kali]~  
$ less sample.txt  
[kali@kali]~  
$  
[kali@kali]~  
$ less sample.txt  
[kali@kali]~  
$ more sample.txt  
fdgidfuvhdcpiuheripuvhdfkj  
djiafbcnvuvhgbuergvuh  
fdshuygwebucbyejnb  
fweh fdhgvucufdgkhxgc  
[kali@kali]~  
$
```

## C. vi Command

### Purpose

The **vi** command is a **text editor** used to create, edit, and save text files.

### Command

```
vi test.txt
```

### Sample Input

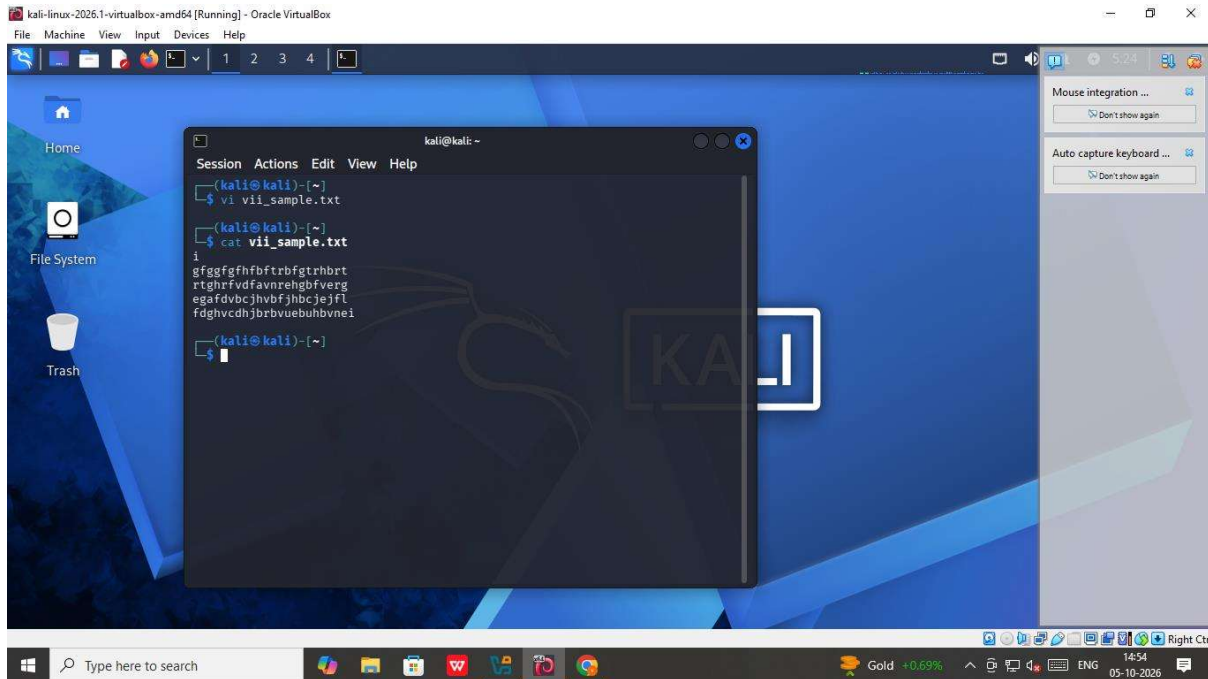

```
vi test.txt
```

Inside the editor:

```
Welcome to Kali Linux
```

```
This is a Linux command experiment.
```

## Sample Output

The screenshot shows a Kali Linux virtual machine running in Oracle VM VirtualBox. The terminal window displays the following commands and output:

```
kali@kali: ~  
$ vi vii_sample.txt  
$ cat vii_sample.txt  
i  
gfggfgfghfbftrbfgtrhbrt  
rtghrtvdfavnrehgbfverg  
egafdvbcjhvbfgjnhbcjejfl  
fdghvcdhjbrbvuebuhbvnei  
$
```

The terminal window is titled "kali@kali: ~" and has a menu bar with "Session", "Actions", "Edit", "View", and "Help". The background of the virtual machine desktop is blue with a large "KALI" logo. The taskbar at the bottom shows various application icons and system status information, including the date "05-10-2026" and time "14:54".

## 4. RESULT

The `less`, `more`, and `vi` commands were successfully executed in **Kali Linux**. The `less` and `more` commands were used to view text files, while the `vi` command was used to create and edit a text file.
